Senate Bill no. 1108

An act concerning senior safety zones.

This bill seeks to limit sex offenders' access to senior center and elderly housing. I would like to ask that the bill also include attending and/or participating in any and all senior center activities as not all events are held at the senior centers.

Senior centers have become a source of information, a friendly neighbor, an opportunity for personal growth and a refuge – a home away from home.

Seniors should not need to worry about falling prey to sex offenders. Lets pass Senate Bill 1108 and protect seniors while at their senior center or in their own housing complexes.

Thank you for the opportunity to have this testimony presented. And I can be contacted at 860-376-2329 or jjencks@lisbonct.com if I can be of any further help.
